

TIZIANO

The word "TIZIANO" is rendered in a bold, white, outlined font. It is superimposed on a dynamic splash of red liquid, possibly wine or paint, that curves around the letters. The background is a dark grey oval with a fine, repeating hexagonal pattern. This central oval is framed by thick, curved bands of dark grey and orange-red at the top and bottom, creating a sense of depth and movement.

Features of our product

Main feature of the product in the fact that by its composition: it is a low-alcohol wine with a light fruity aftertaste, which by its composition has no analogues in Ukraine.

Another important feature of the product is that it is made in an aluminum can, which is 100% recyclable, and the recycling process is endless.

More important product features is that:

- the size of the can, very convenient to use, suitable for people who follow the right diet, because one portion of a fruit-flavored wine drink, volume 0.33 l, will not harm people who adhere to a healthy lifestyle;
- it is convenient to take the can with you to any resting place, since you do not need devices to open the can
- chilled can in summer, keeps the temperature inside the drink for longer;
- the can is durable and not subject to damage that is characteristic of glass products.

You are able to choose any type of design from 8 options below, if you are order 60000 cans in 1 order.
